PSC is the **largest**, broad-based organisation campaigning for **Palestinian rights** in the UK.

*Called by Israel "a strategic threat", we are among Europe's biggest activist groups.*

- Maintains a balanced, carefully considered and informed stance in all our campaigning.
- Organises national meetings, marches, lectures and dialogue with politicians.
- PSC branches routinely share their knowledge, tactics and experience with each other.
- A democratic organisation where ideas and campaigns are voted on and discussed intensively via motions at AGM and other forums/workshops.
- Represents authentic Palestinian aspirations.
- Has many Jewish members who share our aims, enrich our perspective and help counter spurious allegations of anti-Semitism more effectively.
